From documenting patients to truly knowing them

Unwoven Reminiscence

La co-creació amb IA de les reminiscències en persones amb deteriorament cognitiu

La importància de *la memòria*

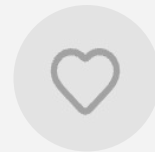

Dignitat

Reconèixer la persona més enllà del diagnòstic, entenent la seva història.

Coherència

Mantenir el fil narratiu de la identitat a través del temps i els canvis.

Vincle

Generar connexions autèntiques entre persones, records i cuidadors.

El Mètode

Captura de memòries estructurada des de la història de vida fins a records específics

El Mètode

Reminiscència que desencadena en un entramat de narratives autobiogràfiques

Designed for Clinical Care

GUIDED CONVERSATIONS WITH GEN-AI SUPPORT, TRANSFORMING FRAGMENTED MEMORIES INTO FHIR-NATIVE CLINICAL NARRATIVES

"I remember the warmth"

How it works

A seamless blend of human-centered design and AI assistance

Visual Memory Prompts

Gen-AI generated images help trigger memories and support cognitive stimulation

Conversational Interface

Natural dialogue flow where patients lead and AI gently assists

Pattern Recognition

Automated highlighting of themes, emotions, and connections

Clinical Summaries

Exportable reports for caregivers and clinical teams

Hi, what would you like to talk about today?

Childhood

Early Adult

Post Adult

Type your message or use /image to generate...

End Session

Type /image to generate • /suggest for questions • / for all commands

Auto-saving enabled

12 Dec 25, 2025 - 4:21

Patient 47 First job at the bookstore. Good recall of spatial details and customer interactions. >

AGE 68

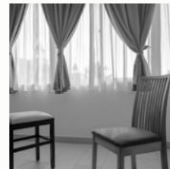

Work Social Achievement

📅 Sep 21, 2025 - 16:45

Nature walks with spouse. Vivid descriptions of seasons changing, emotional stability noted.

Nature Relationships Peace
